

Short Programs

→ *Short photography programs, from 1 week to 5 months:*

- ***Professional Photography Fundamentals - in 5 months***

This program aims at acquiring the fundamentals of studio shooting skills and photoreportage.

- ***Photography & Artificial Intelligence Workshops***

In a world where artificial intelligence (AI) is profoundly reshaping image-based professions, Spéos offers workshops for professional photographers who wish to explore the potential of generative AI tools, streamline their production workflow, and reinvent their creative approach.

- ***Summer Workshops in Paris***

The workshops are designed for beginners, amateurs and photography students alike. Students may enroll for the full Summer Program or choose one or several workshops, depending on their own interests.

Long Programs

→ *Programs in 1 year or 2 years:*

Spéos offers professional photography training programs, in French or in English, designed to develop **high-level versatility**. These programs cover the full spectrum of professional practice: photojournalism, studio, fashion, corporate photography, digital image processing and management, video, 3D, as well as artificial intelligence (AI).

By the end of their studies, students master both the technical and artistic aspects of photography. They also have a **website** and a **professional portfolio**, essential tools to launch their careers.

The programs lead either to a school certificate or to the title of **Entrepreneurial Photographer** (RNCP Level 6 – RNCP39859, registered on 28/11/2024, delivered by Spéos), equivalent to 3 or 4 years of higher education (Bachelor's or first year of Master's degree).

Courses are taught by a **team of experienced professionals**, in **spacious studios** equipped with **state-of-the-art photography equipment**.

POLKA

Photojournalism by Polka & Spéos

- *Program in English, in 5 months*
- *Starts every January*

This program is designed for students who wish to pursue a career in photojournalism. Its goal: to master the fundamentals of shooting in the field, whatever the situation, and to learn how to tell a story in different formats – press, book publishing, or artistic installations.

Supervised by Spéos teachers and the Polka team, students follow a curriculum made up of lectures, workshops and meetings with image professionals and leading names in photojournalism.

Workshop - Image Creation with Artificial Intelligence (AI)

- *2-day workshop, in French or in English*
- *Several sessions per year*

This workshop is a professional-level creative lab, where participants learn to imagine, design and produce complete campaigns powered by generative artificial intelligence. Theory, case studies, technical demonstrations, hands-on exercises and art direction offer a full immersion in the creative uses of AI.

The course covers the technical and ethical fundamentals of generative AI, mastery of the tools, the creation of consistent images in portrait, fashion, still life and advertising, the development of a concept or mini-campaign, as well as the first steps towards AI video. It is intended for photographers, artists, designers and digital creators – beginners or intermediate MidJourney users – wishing to broaden their creative range.

Expert in Digital Visual Creation: Photography, 3D, AI, Video

- *Program in English or in French*
- *From September to May*

This program trains professionals capable of designing and producing high-quality images using the most advanced tools in digital creation.

Combining 3D, video, photography, and artificial intelligence (AI), this comprehensive course provides students with technical, artistic, and strategic expertise aligned with today's market demands in the fields of visual communication, luxury, advertising, and digital content.

Students develop their own personal visual language while mastering current professional workflows.

Photojournalism by Spéos & Agence France-Presse (AFP)

- *Program in English, in 1 year*
- *From September to June*

This program is designed for students who wish to pursue a career in Photojournalism. They will learn to cover the news in all its forms in photographs, at one of the world's three major news agencies.

By tackling the different facets of the photographer's job within an agency such as AFP, students will learn to develop the versatility that is essential in modern photojournalism.

The course is structured as follows:

- The part dedicated to the specificities of photojournalism and news within a press agency will take place at AFP.
- The technical and practical part, as well as social and corporate photography, will be taught at Spéos.
